REPORT

ON THE

RAIL-BORNE TRAFFIC OF BENGAL

During the year 1898-99.

THIS report, the fifteenth of its kind, furnishes statistics of the total trade, external and internal, of the Lower Provinces of Bengal, carried by rail during the year 1898-99 as registered under the block system. It is based on returns furnished by the officers named in the margin, and on the following materials, viz., the Report on the earnings of the East Indian Railway Company; the Report by the Collector of Customs, Calcutta; the Report by the Railway authorities on trade fluctuations and changes in railway freights; the weather and crop report of the Director of Land Records and Agriculture, Bengal; and the trade valuation statements received from four selected marts, the Collector of Customs, Calcutta, the Board of Revenue, L. P., the Calcutta tea and indigo

Assistant Auditor, East Indian Railway, Jamalpur.

Examiner, Guaranteed Railway Accounts, Bombay.

Auditor, Bengal North-Western and Tirhut Railways, Gorakhpur.

Auditor, Oudh and Rohilkhand Railway, Lucknow.

Examiner of Accounts, North-Western Railway, Lahore.

Examiner of Accounts, Eastern Bengal State Railway System, Sealdah (Calcutta).

Auditor, Bengal-Nagpur Railway, Nagpur.

Assistant Auditor, Assam-Bengal Railway, Chittagong.

brokers, and from the several Local Governments and Administrations in India.

2. The only change made during the year by the Director-General of Statistics in the classified list of articles of trade was the inclusion of "al" (*morinda citrifolia*) under the head "Dyes and Tans."

3. The values of all the articles of trade specified in the valuation statement appended to this Report have been assigned according to the system explained in paragraph 3 of the Report for 1893-94. In the case of "alizarine and aniline dyes," however, the value rate of the former has been taken under the orders of the Director-General of Statistics as the basis of the valuation of the trade in mineral dyes in the trade returns of Bengal.

4. The statistics of the river-borne trade between the North-Western Provinces and Oudh and Bengal alluded to in paragraph 5 of the Report on the Rail-borne trade of Bengal for 1897-98 have, in accordance with the instructions contained in letter No. 277 R., dated 11th April 1898, from the Director-General of Statistics, been published in the returns of the rail and river borne trade of the two Provinces for the four quarters of 1898-99, and are also incorporated in this report.

Registration of the inter-provincial river-borne traffic between the North-Western Provinces and Oudh and Bengal.

CHAPTER I.

GENERAL SUMMARY OF THE SEASONS AND RESULTS OF THE HARVESTS AND NOTICE OF PRICES.

In April, the rainfall was deficient over the whole of Bengal proper; it was nearly normal in Bihar and Chota Nagpur and a little in excess of the normal in Orissa. In May, it was slightly in defect in almost all parts of these Provinces. In June, it was above the average in Bengal and Chota Nagpur and below the average in Bihar and Orissa. In July, it was generally below the normal. In August, on the other hand, it was in excess everywhere, excepting in parts of North Bengal and North Bihar. In September, it was heavier and more continuous than usual. All parts of these Provinces except Orissa received an excess of rain in this month. The heaviest falls were in Bihar and North Bengal, where the crops over large areas were damaged by floods. In October, Bihar and Chota Nagpur received less than the normal rain and all the other Divisions received more than the normal. There was practically no rain in November and the first-half of December, but timely showers fell in the latter part of December and the early part of January. In February the rainfall was mostly below the normal, and only slight showers were received in March.

2. The season was generally not unfavourable to the growth of the *bhadoi* crops, although heavy rain in August and September caused high floods in parts of Bihar and North Bengal, which to some extent damaged the standing crops over large areas. Taking the *bhadoi* crops of these provinces as a whole, the outturn is estimated by the Agricultural Department at 91 per cent. of a normal crop, as against 103·1 in 1897-98.

3. In compensation for the short rainfall of the early months of the rainy season, abundant rain fell towards its close in most parts of these Provinces. The floods in several parts of Bihar in August and September did some damage to the standing *aman* paddy, but the injury done was not serious and was confined to comparatively small areas, while outside the lowlying and submerged tracts the heavy rain was of actual benefit. The fairly heavy showers in October were favourable to this important crop, and harvesting operations were facilitated by fine weather in November and December. The outturn of winter paddy is estimated by the Agricultural Department at 105 per cent. of the normal crop, as against 97 per cent. in 1897-98.

4. The season was generally favourable to the cultivation of all kinds of *rabi* crops. The floods of September did not interfere with the sowing operations to any serious extent and left some lands enriched by a deposit of silt, which rendered them particularly adapted for the cultivation of the *rabi* crops. There was practically no rain in November and the first-half of December, but the showers that fell in the latter part of December and the early part of January proved distinctly beneficial. The outturn is estimated by the Agricultural Department to be slightly over the normal, as against 94 per cent. of a normal crop in 1897-98.

5. The rainfall in May was slightly below the normal in most parts of the Province. In June it was above the average in Bengal proper; in July it was below the normal; in August it was above the normal everywhere except in parts of North Bengal; in September it was heavy in most parts of the Lower Provinces. Of the 26 districts in which jute is grown, 15 districts, including such important districts as Rajshahi, Jalpaiguri, Rangpur, Bogra, Pabna, Dacca, Faridpur, Tippera, and Purnea had smaller crops than in 1897-98; in four districts the crops were equal to those of the previous year, while in seven districts, inclusive of

Mymensingh, they were better than in 1897-98. On the whole, last year's crop was inferior to that of the previous year and is estimated by the Agricultural Department at 88 per cent. of a normal crop, as against 93·8 per cent. in 1897-98. It may be mentioned that the area cultivated in 1898-99 was 24·5 per cent. smaller than in 1897-98, and this contraction in area sown is said to be due partly to the unfavourable character of the season at the time of sowing, and partly to the low prices of jute prevailing in 1897-98, and to the high price of food-grains, in consequence of which some lands which usually grew jute were utilized for the cultivation of paddy.

6. The season was generally very favourable for indigo in North Bihar, except in parts of North Bhagalpur, where the heavy rains did some damage to the crop, and in Saran, Muzaffarpur and Darbhanga, where the second cuttings were damaged by floods. In Lower Bengal, however, the rainfall was too heavy, and the crop suffered from it to some extent, in all the indigo-growing districts except Nadia and Rajshahi. The Agricultural Department states that the general average of the district figures in the Province for 1898-99 comes to about 88 per cent. of a normal crop, as against 61 per cent. in 1897-98.

7. The season was generally favourable to tobacco cultivation, and all the important tobacco-growing districts except Rangpur show an increase. Owing to insufficient rainfall after transplantation, the outturn in the Rangpur district, which has far the largest area under this crop, fell from 87 per cent. to 76 per cent. in the year under report. Taking these Provinces as a whole, the Agricultural Department estimates the outturn at 90 per cent., against 88 per cent. in 1897-98.

8. The season was generally not favourable to the cultivation of sugarcane, and consequently the outturn for the Province is estimated by the Agricultural Department at 91 per cent. in 1898-99, against 94 per cent. in the previous year.

9. For poppy, the season was good, and the outturn is estimated by the Agricultural Department to be slightly better than in 1897-98, *i.e.*, 84 per cent., as against 81 per cent. in the previous year.

10. Notwithstanding that the excessive rainfall and floods damaged the seedlings, the average outturn for the Province is estimated at 87 per cent., against 81 per cent. in 1897-98.

11. As was to be expected, there was a great fall in the price of common rice throughout Bengal. The published prices-current return for the fortnight ending 31st March 1899 shows that the price prevailing in Calcutta on that date was 12 seers 4 chitaks per rupee, as against 8 seers 6 chitaks on the corresponding date last year; in the Burdwan district it was 17 seers, as against 13 seers 5 chitaks; in the Rajshahi district 19 seers, as against 13 seers; in the Dacca district 18 seers 4 chitaks, as against 11 seers 12 chitaks; in the Chittagong district 14 seers, as against 11 seers 12 chitaks; in the Patna district 21 seers, as against 15 seers; in the Bhagalpur district 16 seers 8 chitaks, as against 13 seers 14 chitaks; in the Cuttack district 16 seers 6 chitaks as against 15 seers 12 chitaks; and in the Hazaribagh district 18 seers, as against 12 seers 4 chitaks.

12. A detailed statement giving the outturn of the principal crops district by district during the year 1898-99 has been compiled from the reports published by the Department of Land Records and Agriculture, Bengal, and is appended to this report.

RETAIL PRICES OF FOOD-GRAINS.

13. The abstract below shows the average retail prices of food-grains in Bengal during the year 1898, as compared with those ruling in the preceding year:—

				QUANTITIES PER RUPEE IN SHEERS OF 80 TOLAS.

Tobacco, unmanufactured	6 4	6 0	...	4.0

CHAPTER II.

EXTERNAL TRADE OF BENGAL.

STATEMENT II.

As compared with the previous year, the trade of Bengal with other provinces of India registered on the railways during the year 1898-99 was as follows:—

	1897-98.		1898-99.	
	Quantity. Mds.	Value. Rs.	Quantity. Mds.	Value. Rs.
Imports into Bengal ...	1,57,53,821	14,42,08,262	2,27,67,480	14,55,24,514
Exports from Bengal ...	2,40,26,839	12,40,96,117	2,16,83,729	10,84,38,174
Total ...	3,97,80,660	26,83,04,579	4,34,51,209	25,39,62,688

The import trade in the year under report again showed a large increase viz., 70,13,659 maunds, or 44·5 per cent. as compared with the previous year, but the export trade decreased by 23,43,110 maunds, or 9·8 per cent., the net result in the gross trade carried both ways being an increase of 36,70,549 maunds, or 9·2 per cent. The articles in the import trade which showed the largest increase were wheat (38,55,730 maunds), linseed (14,11,538 maunds), rape and mustard seed (10,63,530 maunds), gram and pulses (7,49,733 maunds), all other kinds of food-grains (2,56,767 maunds), and ghi (92,084 maunds); and those which showed the heaviest decrease were hides of cattle (1,78,210 maunds), shell-lac (41,200 maunds), saltpetre (23,075 maunds), and indigo (20,049 maunds). In the export traffic, the greatest improvement occurred under coal and coke (26,94,798 maunds), European cotton piece-goods (67,787 maunds), and salt (56,740 maunds); the articles which showed a considerable falling off were rice (29,73,865 maunds), grain and pulse (6,01,244 maunds), paddy (3,25,506 maunds), miscellaneous food-grains (3,28,059 maunds), kerosine oil (1,12,471 maunds), and unrefined sugar (68,240 maunds). Broadly, there was a remarkable increase in the import of wheat and seeds, in both cases, amounting to 130 per cent., corresponding to an equally notable diminution in the export of rice (80 per cent.) The coal export improved by 25 per cent.

2. The abstract below shows, province by province, the sources of supply of the imports and the destination of the exports during the past two years. Columns are also added to show the percentage borne by the aggregate trade of each province to the total traffic of the Lower Provinces:—

<i>Imports into Bengal.</i>			<i>Exports from Bengal.</i>

Indigo	20,049	39·8
Lac, shell	41,200	25·6
Saltpetre	23,075	9·8

5. The trade in this article is chiefly with the North-Western Provinces and Oudh and Berar. Last year, however, owing to a poor crop, the despatches from the Upper Provinces to Calcutta fell off, but those from Berar and the Central Provinces, where the yield was unusually fine and above the average of the past five years, improved and enabled Calcutta to meet the increased demand for export to Austria-Hungary, Belgium, Japan, and China. It may be mentioned that the imports by sea into Calcutta from Burma amounted to 67,423 maunds, as against 18,621 maunds in 1897-98, and from Madras to 72,207 maunds, as against 6,950 maunds in 1897-98.

6. * The outturn of indigo in the Benares Division and in the Doab was extremely short, owing to excessive rain and to a smaller area cultivated, and hence the imports from the North-Western Provinces and Oudh largely declined.

7. Owing to an exceptional demand in Calcutta for export by sea, chiefly to the United Kingdom, the imports of wheat from the North-Western Provinces and the Punjab, where there was an abundant harvest, showed an enormous increase of 38½ lakhs of maunds, as compared with the figures for 1897-98. The shipments of wheat during the past year were larger than in any year since 1891-92.

8. The largest increase under this head occurred in the imports of gram and pulse (7,49,733 maunds) from the North-Western Provinces, the Central Provinces, and Rajputana into Calcutta and Bihar for export by sea and for local consumption. There was a great demand from Mauritius, the shipments to which place advanced by 33·2 per cent. The increase (1,87,098 maunds) under rice was in the supplies sent to Calcutta from the Central Provinces and to Bihar from the North-Western Provinces and Oudh.

9. Insufficient supplies at the trade centres up-country, coupled with a diminished demand for export by sea, led to a large falling-off of 1,78,210 maunds, or 40·1 per cent., in the imports of hides into Calcutta from the North-Western Provinces and Oudh. It is stated that the fall in the exports to Europe and America is due to the scourge of rinderpest at the Cape of Good Hope, whence enormously large quantities were sent to those countries during the past year.

10. The large decrease in the imports into Calcutta was due to a diminution in the manufacture of shell-lac in the North-Western Provinces and Oudh owing to a poor outturn of stick lac. Moreover the demand for this article for export to the United Kingdom, which is the largest consumer, fell off considerably, the shipments to that country showing a decline of 46·2 per cent., as compared with the figures of the preceding year.

11. Owing to a falling off in the despatches of ghi from Bihar to Calcutta for local consumption, the imports from the North-Western Provinces and Oudh, the Central Provinces and Rajputana showed a large increase of 92,084 maunds, or 53·3 per cent.

12. The decline noticed in 1897-98 in the imports of saltpetre into Calcutta from the North-Western Provinces and the Punjab has been followed by a further decrease in the year under report. The decrease (23,075 maunds, or 9·8 per cent.) is ascribed to restricted local manufactures, and chiefly to a falling off in the demand for export by sea, owing to the replacement of gunpowder by explosives for the manufacture of which saltpetre is not needed. The exports to the

United Kingdom diminished by 33·1 per cent., to France by 24·1 per cent., to the United States by 24·6 per cent., to Italy by 68·2 per cent., while the trade with Germany which sprang up in 1896-97 ceased altogether; on the other hand the shipments to the Straits Settlements, Hong-Kong and Mauritius improved.

13. The excellent oil-seed crops all over India, and the demand for export by sea and for local consumption, stimulated imports of linseed and rape and mustard seed into

Calcutta and Western Bengal from the Upper and Central Provinces and Rajputana. Owing to a deficiency in the production of Russia and other countries, linseed was in great request in Europe, the shipments to the United Kingdom showing an advance of 55·5 per cent., to France of 67·7 per cent., to Germany of 202·2 per cent., and to Holland of 102·9 per cent. In the case of rape and mustard seed, however, the exports by sea declined by 22·7 per cent; those to Belgium showed a large increase of 56·2 per cent., but those to the United Kingdom diminished by 52·0 per cent., to France by 49·6 per cent., and to Germany by 25·9 per cent.

14. The following statements show the principal articles exported during the past year, in which fluctuations were most conspicuous in comparison with the figures for the previous year :—

Articles showing an increase in comparison with 1897-98.

			Quantity of increase.	Percentage of increase.
			Mds.	Per cent.
Coal and coke	26,94,798	24·6
Cotton piece-goods, European	67,787	9·6
Salt	56,740	17·2

Articles showing a decrease in comparison with 1897-98.

			Quantity of decrease.	Percentage of decrease.
			Mds.	Per cent.
Wheat	26,858	81·2
Rice in the husk	3,26,506	91·7
Rice not in the husk	29,73,865	80·6
Gram and pulse	6,01,244	94·6
Other food-grains	3,28,059	91·4
Iron and steel, wrought	29,238	5·6
Kerosine-oil	1,12,471	16·6
Sugar, unrefined	68,210	10·5
Tobacco unmanufactured	47,660	13·6

15. Owing to an increased demand, chiefly for railway purposes, the export trade in coal expanded considerably. The improvement was in the despatches from the Western Bengal

and Chota Nagpur blocks to Bombay, the Northern-Western Provinces and Oudh, the Punjab, the Central Provinces, Berar, and Rajputana.

16. The trade under this head showed a further increase of 67,787 maunds, or 9·6 per cent., in the exports from

Cotton piece-goods, European. Calcutta to the North-Western Provinces and Oudh. The imports by sea of all descriptions of European cotton piece-goods greatly increased.

17. As the result of the excellent harvests during the past two years, the exports of all kinds of food-grains from Calcutta, Western Bengal and Bihar to all parts of India

declined considerably. By far the largest drop was in the consignments of rice, viz., 29½ lakhs of maunds; then comes gram and pulses with 6 lakhs of maunds, and paddy and miscellaneous cereals with 3¼ lakhs of maunds each.

The subjoined statement shows in a concise form the total exports of all kinds of food-grains from Bengal to each Province during the past two years:—

WHENCE EXPORTED.	To the North-Western Provinces and Oudh.	To the Panjab.	To the Central Provinces.	To Rajputana and Central India.	To other Provinces.	Total.

{ 1898-99	971	22	433	15	4,40,643	4,42,084
Total { 1897-98	27,04,502	3,64,830	14,31,608	2,15,595	3,21,039	50,37,574
{ 1898-99	3,34,887	10,828	4,193	5,002	4,75,507	8,30,417

18. Owing probably to the large exports in 1897-98 of wrought iron and steel from Calcutta to the North-Western Provinces and Oudh and the Punjab, the despatches to those provinces during the year under report declined. The imports of wrought iron into Calcutta by sea decreased by 24·1 per cent.

19. The recovery noticed in this trade in 1897-98 was not maintained during 1898-99, although the imports by sea were larger than in the preceding year. The exports during the past year from Budge-Budge to the North-Western Provinces and Oudh, the Punjab, and the Central Provinces declined by 1,12,471 maunds, or 16·6 per cent. It is believed that under the new arrangements for the distribution of Russian kerosine oil in bulk, some of the supplies to Northern India have been diverted from the East Indian Railway to the Great Indian Peninsula Railway.

20. The depression noticed in the exports of sea-imported salt from Calcutta to the North-Western Provinces and Oudh in 1897-98 was last year followed by an increase of 56,740 maunds, or 17·2 per cent., notwithstanding that the imports from Foreign and Indian ports during the year were 13·9 per cent. less than in the previous year.

21. The sugar-cane crop in the Lower Provinces during the year under report was smaller than in 1897-98, and consequently the exports of unrefined sugar decreased. A falling off occurred in the consignments from Bihar to the Central Provinces and Rajputana, but there was an improvement in the despatches to Bombay and the North-Western Provinces and Oudh.

22. In spite of the tobacco crop in Bihar being better than in 1897-98, the exports from that block to the North-Western Provinces and Oudh and the Central Provinces fell off by 47,660 maunds, or 13·60 per cent.

CHAPTER III.

INTERNAL TRADE OF BENGAL.

STATEMENT III.

THE total volume of the internal trade of Bengal, which from one registration block to another within the Lower Provinces during the past two years, is shown in the following statement:—

Exports from the—	Into the Bihar block.	Into the Western Bengal block.	Into the Eastern Bengal block.	Into the Northern Bengal block.	Into the Dacca block.	Into the Calcutta block.	Into the Chota-Nagpur block.	Into the Orissa block.	Total.	Increase (+) or decrease (—) as compared with 1897-98.

Percentage of increase (+) or decrease (—) as compared with 1897-98.	-31·1	-1	-8·8	-10·0	-1·2	+7·8	+1·8

2. The net quantity of the downward and upward traffic, and the percentage of the Calcutta traffic to the total trade, will be seen from the subjoined statement:—

	Total traffic.		Calcutta traffic.		Percentage of the Calcutta traffic to the total trade.	
	1897-98. Mds.	1898-99. Mds.	1897-98. Mds.	1898-99. Mds.	1897-98. Per cent.	1898-99. Per cent.
Downward traffic	11,56,92,850	12,10,93,684	8,53,37,128	9,19,76,233	73·8	75·9
Upward ,,	2,64,92,581	2,06,95,062	1,99,47,530	1,37,25,400	75·3	68·3
Total	14,21,85,431	14,17,88,746	10,52,84,658	10,57,01,633	74·0	74·5

While the downward trade increased by 54,00,834 maunds, or 4·9 per cent., the upward trade decreased by 57,97,519 maunds, or 21·9 per cent., the net result of the trade carried both ways being a trifling decline of 3,96,685 maunds, or 0·2 per cent. The articles which showed an increase in the downward trade were rice (26,20,969 maunds), other food-grains (14,55,878 maunds), linseed (21,50,093 maunds), and those which showed a decrease were raw jute (49,96,799 maunds), rape and mustard seed (6,94,991 maunds), and unmanufactured tobacco (1,01,256 maunds). In the upward traffic, the principal fluctuations were an increase under coal and coke (15,80,717 maunds), and gunny-bags and cloth (1,38,298 maunds), and a decrease under rice (50,20,449 maunds), paddy (8,32,264 maunds), and cast iron and steel (3,75,029 maunds).

Calcutta Trade.

3. The following statement shows the imports of the chief articles of merchandise into Calcutta by all routes, and the exports therefrom by sea, during the past two years:--

5. *Collon, raw*.—The decrease of 8,158 maunds in the imports into Calcutta from the Dacca block is due to a poor crop in the Chittagong Hill Tracts.

6. *Coal and coke*.—The large increase in the imports of coal and coke in 1897-98 was followed by a further, though slight, improvement in the past year of 50,93,860 maunds, or 6·7 per cent. This article was, as usual, in demand for use in mills, factories, steamers, for brick-burning purposes, for public use and for export to Ceylon, Aden and the Straits Settlements. The imports of foreign coal showed a further diminution, the supply received last year being only 5,811 tons as against 7,497 tons in 1897-98.

7. *Cotton piece-goods (European)*.—There was a further improvement in the quantity sent from Calcutta to the Bihar, North Bengal, and Chota Nagpur blocks. The increase is no doubt due to the general prosperity of the people and to their preference for mill-made goods which are cheaper than hand-made cloths.

8. *Food-grains*.—The considerable development in the downward trade in all kinds of food-grains, was due to a demand for local consumption in Calcutta, and for export by sea. The shipments of rice and paddy by sea during 1898-99 were 83·5 per cent. over the figures of the previous year, and were the highest during the past decade, the largest exports being to Arabia,

Ceylon, the United Kingdom and Mauritius. The large decrease of 46,15,357 maunds, or 99·1 per cent., in the despatches of rice and paddy from Calcutta to the internal blocks was due to the cessation of the importation of Burma rice.

The following statement shows in a concise form the circulation of all kinds of food-grains between the different internal trade blocks in the Lower Provinces, during the past two years:—

FROM	To Calcutta.	To Bihar.	To Western Bengal Block.	To Eastern Bengal Block.	To Northern Bengal Block.	To Dacca Block.	To Chota Nagpur Block.	To Orissa Block.	Total.

9. *Hides*.—The small increase of 15,707 maunds, or 3·2 per cent., in the imports of raw hides into Calcutta was due to larger despatches from the Bihar and Dacca blocks.

10. *Jute, raw*.—Owing to a smaller area cultivated and to climatic influences, the jute crop last year was not only insufficient, but also unsatisfactory and greatly inferior to the outturns of previous years, and hence the trade declined by about 50 lakhs of maunds, or 33 per cent. The exports by sea also decreased considerably, viz., by about 5 million cwt., or 35·4 per cent.

11. *Gunny-bags and cloth*.—In consequence of the large despatches of food-grains and oil-seeds to Calcutta, the demand for gunny-bags and cloth for bagging purposes considerably increased, and the trade in these articles advanced by 1,38,298 maunds, or 43·3 per cent. The largest quantities of gunnies were sent to the Bihar, Western Bengal, Eastern Bengal, and Northern Bengal blocks.

12. *Kerosine oil*.—The past year records a further increase of 24,476 maunds in the exports of kerosine oil to the interior. The advance was in the quantities sent from Eastern Bengal to Bihar, Northern Bengal, and Calcutta.

13. *Oil-seeds*.—Notwithstanding the large outturn of oil-seeds in the Lower Provinces, the quantity of rape and mustard seed sent to Calcutta and Western Bengal from the Bihar, Eastern Bengal and Dacca blocks fell off by 6,94,991 maunds, or 27·5 per cent., owing probably to the requirements of Calcutta and Western Bengal having been met by supplies from the Upper and Central Provinces, and to the fact that the demand for export by sea was much smaller than in 1897-98. In the case of linseed, however, the trade in which was in a depressed state in 1897-98, there was, as has already been stated in the section of this report dealing with the external trade, a great demand from the United

Kingdom and Germany, and this caused a large increase of $21\frac{1}{2}$ lakhs of maunds, or 86 per cent., in the consignments to Calcutta from the Bihar, Eastern Bengal, Western Bengal and Northern Bengal blocks.

14. *Salt*.—The decrease noticed in this trade in 1897-98 was continued during the past year, but the decline was very trifling, viz., 27,697 maunds, and is observable in the supplies sent from Calcutta to the Bihar and Eastern Bengal blocks.

15. *Saltpetre*.—There was a further decrease last year in the outturn of saltpetre in the Patna Division, the decline being about half a lakh of maunds.

This fact, and the small demand from Europe and America, led to the falling off of 27,159 maunds in the despatches from Bihar to Calcutta.

16. *Sugar*.—The exports of refined as well as unrefined sugar from Calcutta to Bihar and Western Bengal showed a falling-off of 46,465 maunds, or 21·2 per cent., and 59,886 maunds, or 10·4 per cent., as compared with the two previous years, respectively. The imports of both kinds of sugar into Calcutta by sea decreased during the year.

17. *Tobacco, unmanufactured*.—The tobacco crop in the Lower Provinces was better than in 1897-98, but nevertheless the imports into Calcutta decreased by 42,413 maunds owing no doubt to a decline in the demand for export to Burma and Holland which are by far the largest consumers of Indian tobacco. The shipments to Burma fell from nearly 15 million pounds to $14\frac{1}{2}$ million pounds, and those to Holland from nearly $1\frac{1}{2}$ million pounds to about 1 million pounds.

18. *Indigo*.—A larger outturn of indigo in Bihar, and a demand for export by sea, led to a considerable increase of 34,553 maunds, or 82·3 per cent. in the consignments from that block to Calcutta.

APPENDIX.

Statement of outturn of some of the principal crops, district by district, during the year 1898-99, compiled from the reports published by the Department of Land Records and Agriculture, Bengal.

Coke	July 1898	Any station	Any station	Coke when carried in Bengal-Nagpur Railway "K" and "K H" type high-sided open wagons (with their flap doors off) is charged over the East Indian Railway on actual weight with a minimum of 9½ tons per wagon used. When in these types of wagons that have flap doors, the minimum is 12 tons per wagon. When the weight of load exceeds the minimum, charge is made on actual weight. When loaded in any other type of Bengal-Nagpur Railway wagons, charge is to be levied on the full carrying capacity over East Indian Railway, except in the case of coke from Radhanagar.			
				Charge is made on full marked carrying capacity of stock used except in the case of coke from Radhanagar.			
Coal	March 1899	Coal in full wagon-loads from all East Indian Railway colliery stations or from via Asansol to Jubulpore and via, and to Katni and via will be charged one-tenth pie per maund per mile. The minimum weight for charge will be that of the full marked weight carrying capacity for each class of coal, of the wagons employed.		For the 1st 400 miles '15 pie. For the distance in excess of 400 miles '10 pie.			
		The differential rule will apply to the Katni rate, to all stations, Jukehi to Majawan inclusive. The combined rule will not apply. Coal charged at this rate will be excluded in calculating rebate under clauses 126 and 128 of the tariff. Coal booked via Asansol in connection with through rates other than those based upon the telegraphic scale quoted in clause 121 of the tariff, will be charged at '15 pie per maund per mile on actual distances over the East Indian Railway, subject to a minimum charge as for 35 miles.
